

**PAI P7/41  
KICK-OFF MEETING**

**Building E, Floor 7  
February, 11th 2013**

## **Tolerance and resistance to parasite infection: Trypanosomatidae as paradigm (TRIT)**

- 10:00**     **Alain Beschin (VUB)**  
TRIT: Where do we come, where do we stand, where to go?
- 10:30**     **Guy Caljon (ITG-1)**  
Trypanosome-associated changes in the tsetse fly salivary gland and its impact on parasite development: a challenge for collaborations
- 11:00**     **Coffee break**
- 11:30**     **Pierrick Uzureau (ULB)**  
Mechanism of *Trypanosoma brucei gambiense* resistance to normal human serum
- 12:00**     **Jennifer Cnops (VUB)**  
B cells in resistance and tolerance to trypanosome infection
- 12:20**     **Discussions on collaborative work**
- 13:00**     **Lunch**
- 14:00**     **Jean-Claude Dujardin (ITG-2)**  
Survival skills of *Leishmania*: from data-base driven to experimental research
- 14:30**     **Florence Kauffmann (VUB)**  
Generating GFP leishmania parasites starting from field-derived parasite stocks
- 15:50**     **Discussions on collaborative work**
